Fast, Reliable Bleeding Control

The Tiger 6" Trauma Bandage is a compact, effective solution for managing severe bleeding in emergencies. Ideal for first aid kits and field use, its Hook & Loop 'brakes' prevent unrolling, making application quick and controlled even under pressure.

Built for performance and versatility, it features a 6" elastic wrap for compression, a non-adherent absorbent pad, and a securing clip to hold it in place. Latex-free and lightweight, it's a safe, durable, and affordable option for medical professionals and responders.

FEATURES

Non-adherent Absorbent Pad

The pad absorbs blood and protects the wound.

Effective Pressure Application

6-inch elastic wrap applies consistent pressure to help stop bleeding.

Hook & Loop Brakes

Prevents unrolling during application.

Securing Clip

To lock the bandage in place
